

ELECTRONIC SIGNATURES IN GLOBAL AND NATIONAL COMMERCE ACT

Skyslope™ is pleased to offer our clients the DigiSign™ electronic verification and document signing service. This service is compliant with the Electronic Signatures in Global and National Commerce Act ("the E-SIGN Act"). The E-SIGN Act was passed by Congress to facilitate the use of electronic signatures, communications and records (collectively, "Records") in interstate and foreign commerce by ensuring the validity and legal effect of contracts entered into electronically. Careful to preserve the underlying consumer protection laws governing consumers' rights to receive certain information in writing, Congress imposed special requirements on businesses that want to use electronic records or signatures in consumer transactions. Section 101(c)(1) of the E-SIGN Act requires businesses to obtain from consumers affirmative consent to receive and execute (sign) Records electronically.
